RHINO 6000

PROFESSIONAL LABELLING TOOL

If you've "held out" for the best labelling tool with PC Connectivity, feast your eyes (and rest your fingers) on RHINO 6000. Installers tell us the three things they want from a labelling tool are "EASY, EASY and EASY." So go ahead - load and unload label cassettes without hesitation. Use the generously-sized LCD to create, edit and preview multiple labels without breaking a sweat. If you do, our labels resist solvents, UV, moisture, harsh temperatures and, yes, even smearing. For high-end installations and the highest level of satisfaction, RHINO 6000 is built for the long haul - and to please you every step of the way.

Intuitive Graphical Interface
Create, edit and preview multiple labels on our largest backlit LCD

One-Touch, Power-Assisted Cutter
Eliminate the fatigue of manual cutting and increase efficiency

Hot Keys
Eliminate guesswork complicated menus and enjoy fast and easy formatting of commonly-used label types

Quick-Charge Li-Ion Rechargeable Battery
With on-screen battery life indicator

Symbols
Over 100 pre-programmed industry symbols

Save Your Labels
Customise over 1,000 labels with logos and symbols - and recall them instantly

FAST

PC CONNECTIVITY

Library
Over 150 pre-programmed industry terms and the ability to customise your own library of terms

Integrated Impact Bumpers
Protects against harsh conditions while allowing easy access to label cartridge

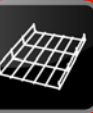

PC CONNECTIVITY

- Free Windows® driver available at www.rhinolabeling.com for printing from any Windows® program via USB interface.
- Upgrade printer firmware when new features become available.
- Works best with Rhino CONNECT™ Software* (not included) to:
 - Upload / download label files for in-the-field and on-demand printing.
 - Insert customised graphics, logos, symbols and industry terms.
 - Import data from any Windows® based program.
 - Create labels using the integrated step-by-step wizard.
 - Print labels directly from RHINO CONNECT™ Software.

*The terms for the RHINO CONNECT™ Software consist of the Rhino 6000 Driver Software and a registered trademark of Microsoft Corporation in the United States and/or other countries.

Powerful Serialisation
Built-in wizards for simple and advanced serialisation

RHINO™ 5000

PROFESSIONAL LABELLING TOOL

Put the power of RHINO 5000 in your hands. In just seconds, create long-lasting labels for wire wrapping, patch panels, terminal blocks and more. Crisp, clear thermal-transfer printing resists smears, chemicals, solvents, UV heat – whatever your workspace can hand out. And, you'll have an easy handle on things with the RHINO 5000's lightweight portability, bright backlit display and impact-resistant protective rubber bumper. Tired of fumbling with difficult-to-remove label backing? Our easy-to-peel labels feature a split-back design for "get-it-done-now" efficiency.

Battery Life Indicator – Combined with "sensitive shut-off" technology, you won't run short of power on the job.

Backlit Display – Essential for labelling in low-light environments.

Wrap – Automatically selects the right label size – and the longer text size – for maximum legibility on any cable or wire. Differences between 5 and 9 and 1, 2 and 0. Repairs text for 35% identification.

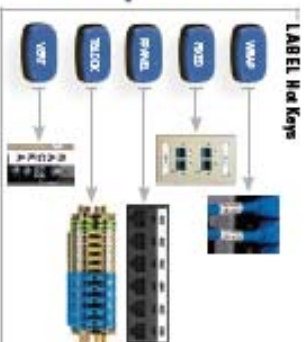

Fixed – Automatically centers and prints a specified label length – ideal for racks, panels, bins, warehouse applications and more.

Patch Panel – Saves keystrokes while automatically centering and spacing text to fit each port. Switches text to alternate repetitive typing, great for detraction, Hi, even five patch panels.

Impact-Resistant Rubber Bumper – Protects your RHINO 5000 from accidental falls or harsh jobsite conditions.

DURABLE

HOW TO PRINT...

- WRAP**
- 1 Enter text, [eg. 123]
 - 2 Press WRAP
 - 3 Select the size of cable or wire using the navigation key [eg. CAT X/Coax]. Press ENTER
 - 4 Press PRINT
- PATCH PANEL**
- 1 Enter text [eg. A01]
 - 2 Press PATCH
 - 3 Select the distance between ports using the navigation key [eg. A = 15mm]. Press ENTER
 - 4 Press SERIAL
 - 5 Enter the number of ports desired [eg. 6]. Press ENTER
